**For Immediate Release**

**TOKUYAMA® AMERICA INC IS PROUD  
TO INTRODUCE  
OUR NEW REVOLUTIONARY DENTAL ADHESIVE  
TOKUYAMA® BOND FORCE**

**SAN DIEGO, California, August 24, 2007 /PRNewswire/ -- Tokuyama America Inc.**, a dental products manufacturer, today introduced its new seventh generation single component, self-etching, fluoride releasing bonding agent, **TOKUYAMA® BOND FORCE**.

**TOKUYAMA® BOND FORCE** contains a patented SR monomer, which creates a 3-D link to the tooth generating an extremely strong bond to enamel and dentin. **BOND FORCE** is available in bottle or unit dose and offers the following benefits:

- Outstanding bond strength
- Designed for cut/uncut enamel and dentin
- Only one application required
- No etching, No rinsing
- No mixing
- Fluoride releasing
- Thin film thickness
- Less technique sensitive

Please contact **Tokuyama America Inc.** for any inquiries concerning Tokuyama Dental products.
